DIFC CAT 3C - FMC

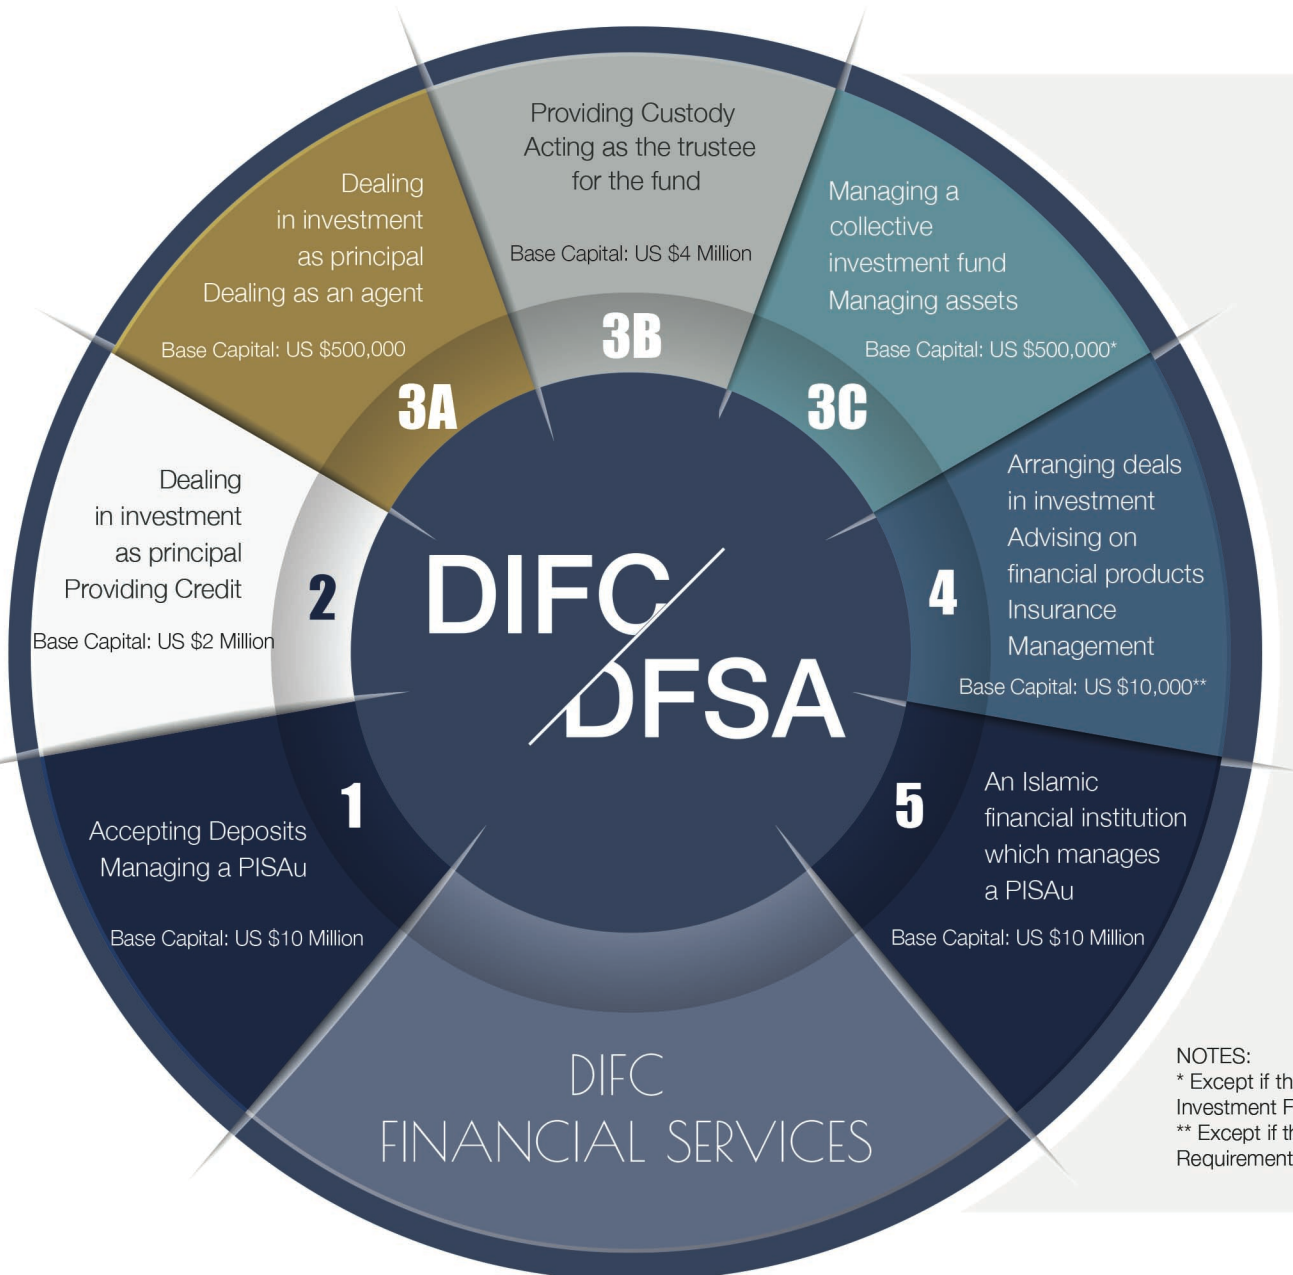

DIFC DFSA

The Dubai International Financial Centre, or DIFC, is a premier onshore financial centre in the region. The DIFC has been in business for over a decade, and has been a pioneer in offering entities a well-regulated platform to conduct financial service activities.

The Dubai Financial Services Authority (DFSA) authorises and regulates firms for financial services, and is well-regarded as a mature regulator, both in the region and worldwide.

The DIFC Courts complete the structure, drawing on Common Law to offer familiarity and comfort to international investors.

FINANCIAL SERVICES CATEGORISATION OF FIRMS

The DFSA categorises firms on the basis of the type of activities and the risks associated with such activities. Applicants are encouraged to select the activities that are most representative of their intended business. Based on these activities, the DFSA would advise on the 'Category' that the applicant firm would fall under.

The three relevant types of capital calculations are:

BASE CAPITAL

The minimum capital that a firm has to put in.

EXPENDITURE-BASED CAPITAL

Calculated as per a percentage of the annual expenditure of the firm.

RISK-BASED CAPITAL

Calculated based on the various risks that the firm is exposed to.

NOTES:

* Except if the only Financial Service referred to in Rule 1.3.5 (a) that the Authorised Firm is authorised to carry on is Managing a Collective Investment Fund in which case its Base Capital Requirement is: (a) US \$140,000 if it manages any Public Fund; or (b) US \$70,000 otherwise

** Except if the Authorised Firm is authorised to Operate a Crowdfunding Platform and it holds Client Assets, in which case its Base Capital Requirement is US \$140,000.
